

Environmental Policy Statement

At Malary Ltd, we recognise the importance of managing our operations to ensure environmental safety. We are committed to maintaining an effective environmental management system that meets the requirements of BS EN ISO 14001:2015 through continuous monitoring and evaluation of our processes, procedures, and strategic objectives.

This policy outlines our approach and objectives to minimise our environmental impact.

Our environmental policy is guided by the following principles:

- We strive to prevent pollution and reduce waste through efficient use of resources and sustainable practices.
- We comply with all relevant environmental legislation, regulations, and other requirements to which we subscribe.
- We are dedicated to the continuous improvement of our environmental performance by setting and reviewing environmental objectives and targets.
- We promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- We integrate environmental considerations into our business planning and decision-making processes to promote sustainable practices.
- We manage our energy and water usage efficiently to minimise our environmental footprint.
- We engage with our stakeholders, including customers, suppliers, and the community, to promote environmental responsibility.
- We monitor our environmental performance and report on our progress to ensure transparency and accountability.

Malary Ltd will fully comply with all legislative requirements and the conditions of our Environmental Permit BT27771K, issued under the Environmental Permitting (England and Wales) Regulations 2016.

This policy is communicated to all employees and is available to interested parties on our notice board, website, and upon request. It is reviewed annually to ensure its continued relevance and effectiveness.

Signed:

Lewis Walker, Managing Director
